

SPS fibre FORM Instrument Cabinet Enclosure Type FF480

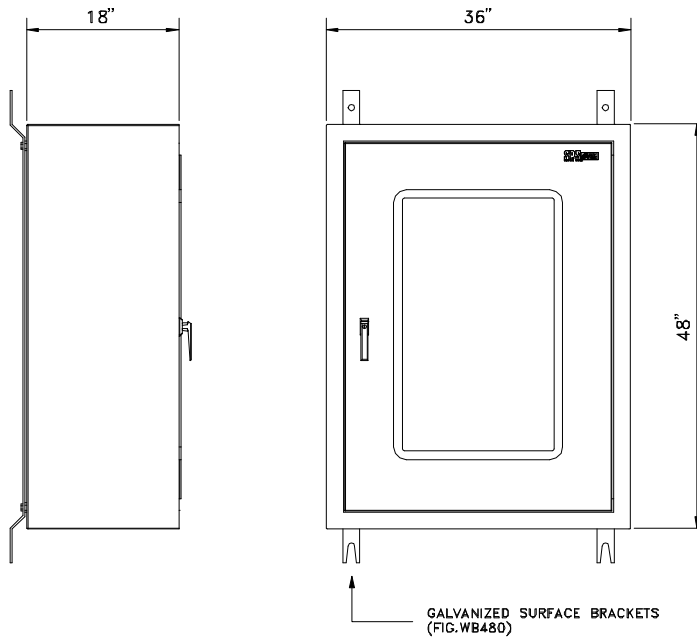

Dimensions: (Approx.) Height x Width x Depth
48"(1200mm) x 36"(900mm) x 18"(460mm)

Weights: (Approx.)

Un-Insulated 71 lbs. / 32 kgs.

Insulated 99 lbs. / 45 kgs.

SPS fibre FORM cabinet enclosures are "Open Molded" using glass reinforced epoxy vinyl ester resin. The cabinet is light gray in color with a "Gel-Coat" outer surface for ultimate "UV" protection. Cabinets are complete with stainless steel hinges and a three point closing mechanism. Enclosures use a neoprene gasket to a Nema 4x standard.
