

SPS fibre FORM Instrument Cabinet Enclosure Type FF380

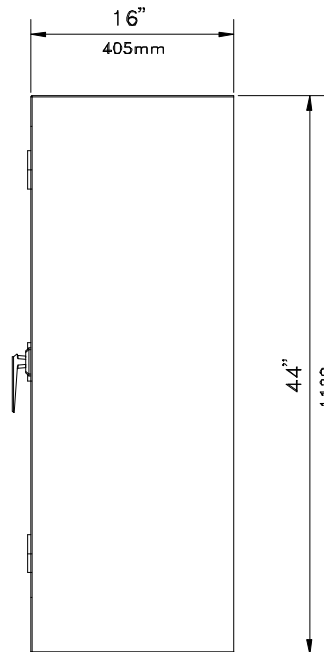

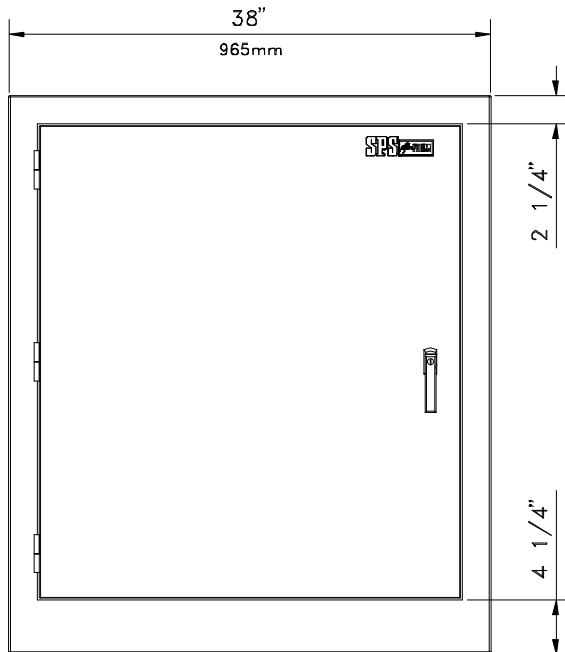

Dimensions: (Approx.) Height x Width x Depth
44"(1200mm) x 38"(900mm) x 16"(460mm)

Weights: (Approx.)

Un-Insulated 60 lbs. / 28 kgs.

Insulated 88 lbs. / 40 kgs.

SPS fibre FORM cabinet enclosures are "Open Molded" using glass reinforced epoxy vinyl ester resin. The cabinet is light gray in color with a "Gel-Coat" outer surface for ultimate "UV" protection. Cabinets are complete with stainless steel hinges and a three point closing mechanism. Enclosures use a neoprene gasket to a Nema 4x standard.
